Healthcare data is the fastest-growing regulated data set on the planet — and every record must be coded before it can be billed, audited or analysed.

\$60 Bn+

Indian healthcare BPM & RCM industry size projected by 2027

3 Lakh+

Certified coder shortage across US payer & provider networks

22%

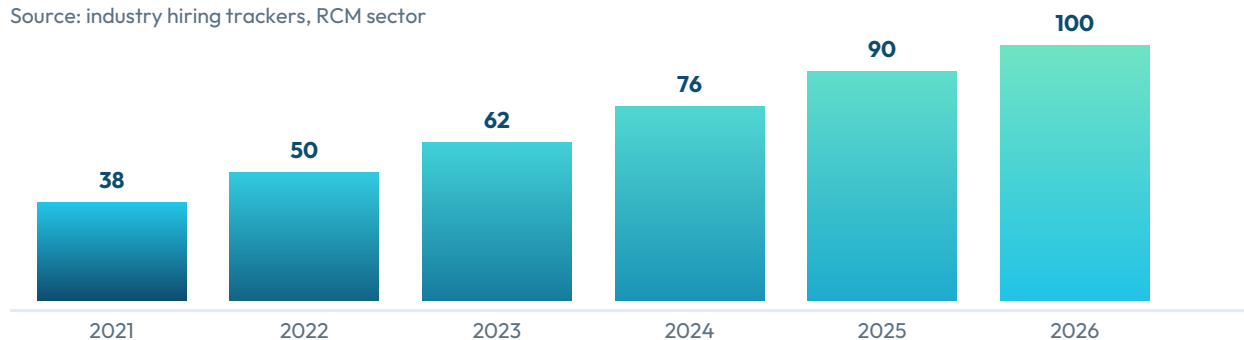

Year-on-year hiring growth for risk-adjustment (HCC) coders

60%

Roles now fully remote or hybrid — work global from India

Certified coder demand in India (indexed)

Source: industry hiring trackers, RCM sector

The 2026 shift: coding is now an analytics job

AI-assisted computer coding (CAC) drafts the code — certified humans validate, audit and defend it. Our curriculum trains you for that exact role: reviewer, auditor and clinical documentation partner, not a manual data-entry coder.

ROLES UNLOCKED

Where you can work

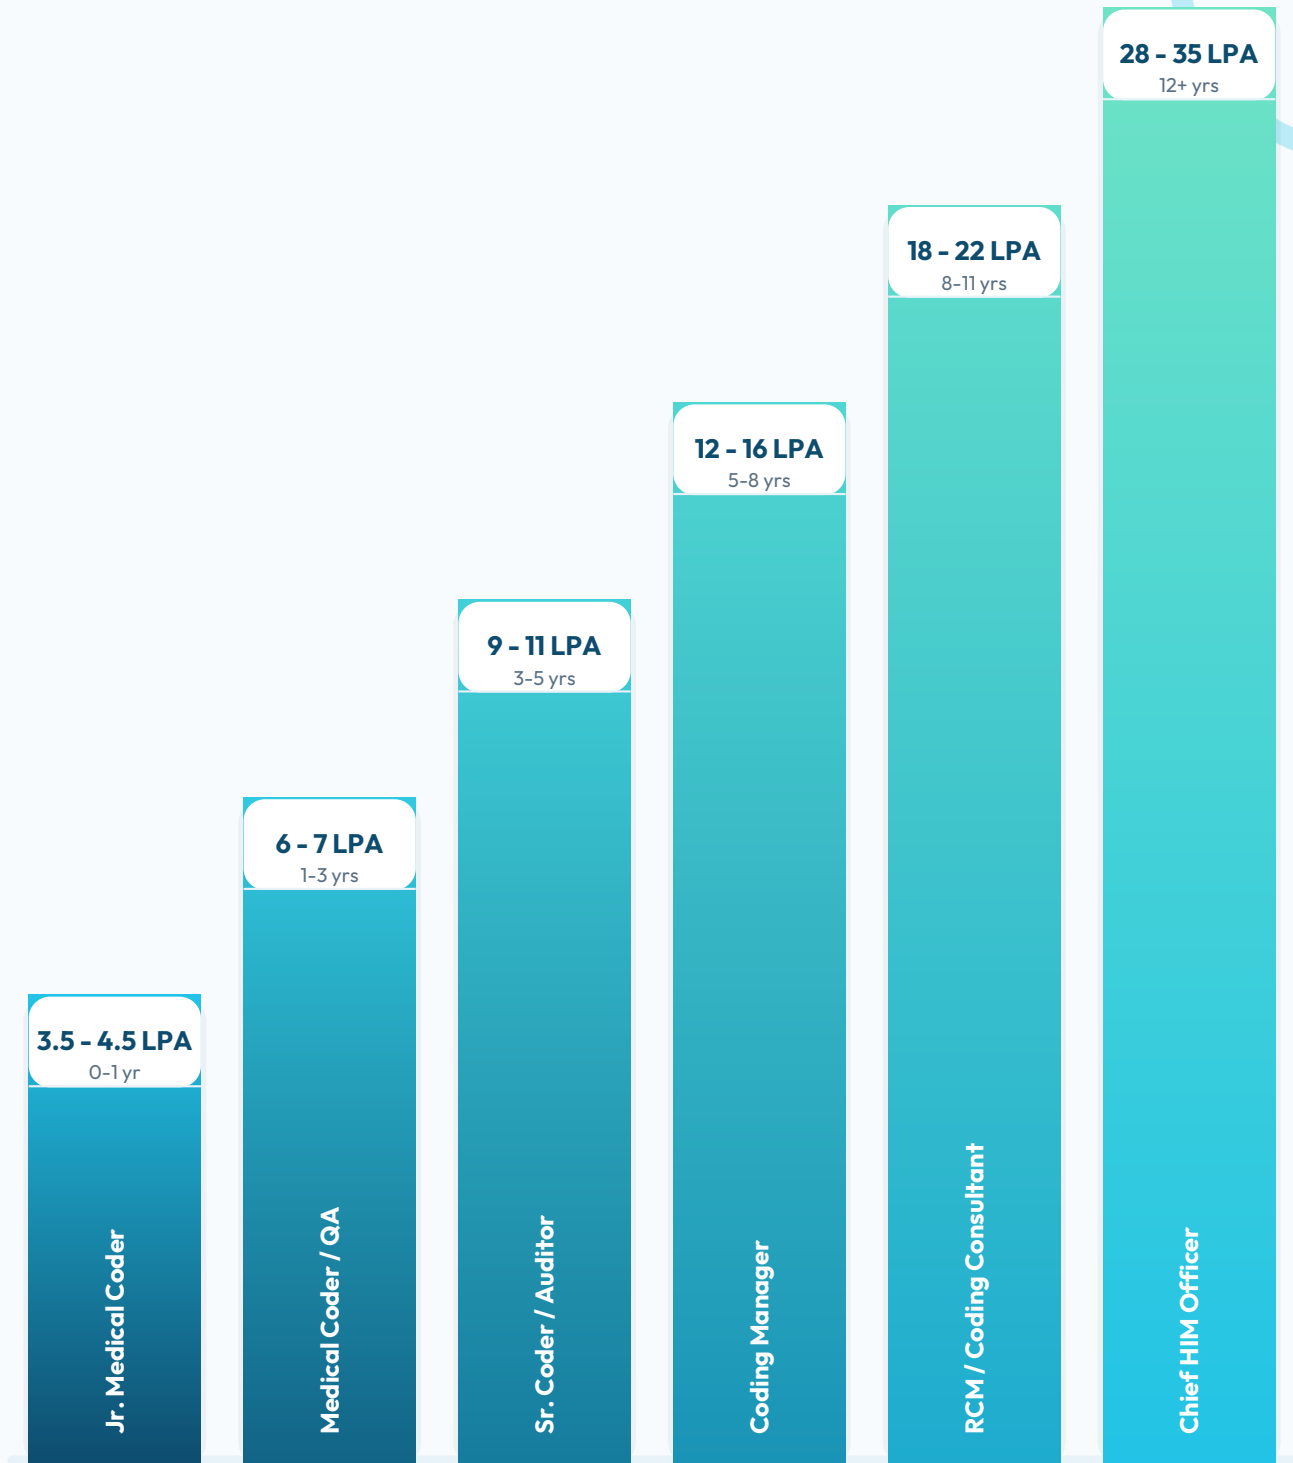

- **Provider side**
Hospitals, clinics, physician groups
- **RCM / KPO**
Global delivery centres in India

- **Payer side**
Insurers, TPAs, claim adjudication
- **Freelance**
Remote per-chart contracts in USD

GROWTH & COMPENSATION

Your Career Trajectory

Average CTC benchmarks for Indian RCM & payer organisations, 2026.

Add 20-35% premium with CPC® + CRC® dual certification and specialty (IP-DRG / HCC) expertise.

12 WEEKS • 6 PHASES

Curriculum at a Glance

01

PHASE 01

Clinical Foundations

Medical terminology, anatomy & physiology, pathophysiology, pharmacology basics, healthcare ecosystem.

02

PHASE 02

ICD-10-CM Diagnosis Coding

Conventions, official guidelines, chapter-wise coding, sequencing, combination & manifestation codes.

03

PHASE 03

CPT® & HCPCS Level II

E/M 2021+ MDM rules, surgery, radiology, pathology, anesthesia, modifiers, NCCI edits, bundling.

04

PHASE 04

Advanced & Inpatient

ICD-10-PCS, MS-DRG & APC grouping, HCC risk adjustment, RAF scoring, complex multi-system cases.

05

PHASE 05

RCM, Audit & Compliance

Claim lifecycle, denial management, appeals, HIPAA, fraud & abuse, audit methodology, CDI queries.

06

PHASE 06

AI, Analytics & Placement

CAC & NLP tools, coding analytics dashboards, CPC® mock exams, resume, LinkedIn, mock interviews.

Medical Terminology & Body Systems

- ✓ Word roots, prefixes, suffixes and combining forms used in clinical documentation
- ✓ System-by-system anatomy: musculoskeletal, cardiovascular, respiratory, neuro, GI, GU, endocrine
- ✓ Pathophysiology of high-volume conditions: diabetes, CKD, CHF, COPD, sepsis, malignancy
- ✓ Pharmacology essentials — drug classes that drive diagnosis and HCPCS J-code selection

The US Healthcare & Reimbursement Ecosystem

- ✓ Providers, payers, clearing houses, TPAs and the role of the certified coder
- ✓ Medicare Parts A/B/C/D, Medicaid, commercial and value-based care models
- ✓ Reading the medical record: H&P, progress notes, operative reports, discharge summaries
- ✓ Introduction to the revenue cycle — from patient registration to payment posting

CAPSTONE PROJECT

Abstract a full de-identified patient chart and build a clinical summary sheet ready for coding.

Structure, Conventions & Official Guidelines

- ✓ Alphabetic Index, Tabular List, code structure and 7th character extensions
- ✓ Conventions: NEC/NOS, Excludes1 vs Excludes2, code first, use additional code, with/in
- ✓ Specificity, laterality, acuity and the principal vs first-listed diagnosis rule
- ✓ Sequencing logic, combination codes, manifestation pairs and unacceptable principal diagnoses

Chapter-Wise Application

- ✓ Infectious disease and sepsis / severe sepsis / septic shock sequencing
- ✓ Neoplasms — primary, secondary, in-situ; Table of Neoplasms and treatment-episode coding
- ✓ Endocrine, circulatory, respiratory, digestive, genitourinary and musculoskeletal chapters
- ✓ Obstetrics, neonatal, congenital anomalies; injury, poisoning and external cause coding
- ✓ Z-codes, social determinants of health (SDOH) and status code capture

CAPSTONE PROJECT

Code 60 real-world outpatient encounters with guideline citations for every code assigned.

Evaluation & Management under the 2021+ Rules

- ✓ MDM-based level selection: problems addressed, data reviewed, risk of complications
- ✓ Time-based coding, prolonged services and split / shared visit rules
- ✓ New vs established, consults, observation, critical care, telehealth and preventive visits

Surgery, Ancillary Sections & Modifiers

- ✓ Surgical package, global periods and separately reportable services
- ✓ Integumentary, musculoskeletal, cardiovascular, digestive and nervous system procedures
- ✓ Radiology, pathology & laboratory, anesthesia base units and time calculation
- ✓ Modifier mastery: 25, 59 & X{EPSU}, 24, 57, 51, 50, 62, 78, 79, 76/77, 22, 26/TC
- ✓ HCPCS Level II — J-codes, DME, supplies, drug wastage (JW/JZ) and payer-specific G-codes

Edits & Payment Integrity

- ✓ NCCI procedure-to-procedure edits, MUEs, bundling and unbundling risk
- ✓ LCD / NCD medical necessity, ABN rules and diagnosis-to-procedure linkage

CAPSTONE PROJECT

Code a full operative report set across four specialties and defend every modifier used.

Inpatient Coding — ICD-10-PCS

- ✓ Seven-character PCS structure, root operations and the objective-based selection tree
- ✓ Body part, approach, device and qualifier tables across medical-surgical sections
- ✓ POA indicators, HAC logic, complications and comorbidity capture (CC / MCC)
- ✓ MS-DRG assignment, case mix index, geometric length of stay and IPPS reimbursement

Risk Adjustment & Facility Outpatient

- ✓ HCC models (CMS-HCC v28, HHS-HCC), RAF score calculation and revenue impact
- ✓ MEAT / TAMPER documentation criteria and chart-chase methodology
- ✓ RADV audits, deletes and the compliance cost of unsupported HCCs
- ✓ APC grouping, status indicators and hospital outpatient (OPPS) facility coding

Specialty Deep Dives

- ✓ Oncology, cardiology & interventional radiology, orthopaedics, OB-GYN, E&M-heavy primary care
- ✓ Emergency department leveling, anesthesia and ambulatory surgery centre coding

CAPSTONE PROJECT

Group 15 inpatient charts to MS-DRG and calculate the RAF impact of a 30-member panel.

Revenue Cycle & Denial Management

- ✓ Claim lifecycle: eligibility, charge capture, scrubbing, submission (837), remittance (835)
- ✓ Reading EOBs and ERAs; CARC / RARC denial code interpretation
- ✓ Top coding-driven denials and how to write a winning appeal letter
- ✓ AR follow-up, underpayment analysis and coder-productivity KPIs

Audit, Compliance & Documentation Integrity

- ✓ Building an internal audit plan: sampling, scoring, error categories, feedback loops
- ✓ HIPAA privacy & security, PHI handling, minimum-necessary standard
- ✓ Fraud, waste & abuse — False Claims Act, upcoding, cloning, OIG work plan
- ✓ CDI fundamentals: compliant physician queries, query templates and escalation

CAPSTONE PROJECT

Run a 25-chart mock audit, score accuracy, and present a remediation plan to a physician panel.

AI-Assisted Coding & Analytics

- ✓ How CAC and NLP engines suggest codes — and where they systematically fail
- ✓ The human-in-the-loop workflow: validation, exception queues and audit sampling
- ✓ Prompting and using AI assistants safely without exposing PHI
- ✓ Coding analytics: denial trend dashboards, DNFB, CMI movement and productivity reporting

Certification & Career Launch

- ✓ CPC® exam blueprint, time strategy, bubbling technique and two full mock papers
- ✓ Choosing your next credential: COC®, CIC®, CRC®, CDEO® or CPMA®
- ✓ ATS-ready resume, LinkedIn optimisation and coder portfolio presentation
- ✓ Domain + HR mock interviews, salary negotiation and remote-work readiness

CAPSTONE PROJECT

Final certification simulation plus a portfolio review with an industry auditor.

Why that gap exists

Practising coders teach

Every mentor codes or audits charts for a living — not generic trainers.

Real charts, not slides

200+ de-identified records across specialties, coded and reviewed weekly.

Audit-first method

You are scored on accuracy the way a QA lead will score you on the job.

Placement built in

Interview drills, portfolio and referrals to RCM hiring partners.

Same certification. One-third the cost. Three times the hands-on practice.

INDUSTRY READY

Tools, Tech & Certification Roadmap

Hands-on with the software your employer actually uses

Encoder & references

3M CodeFinder, Optum EncoderPro, TruCode, AAPC Codify

EHR / EMR exposure

Epic, Cerner, eClinicalWorks chart navigation & abstraction

Clearing house & billing

Claim scrubbing, EDI 837/835, ERA & EOB interpretation

AI-assisted coding

CAC / NLP engines, autosuggest validation, audit sampling

Analytics

Excel & Power BI dashboards for coder productivity and denial trends

Compliance toolkit

NCCI edit checker, LCD/NCD lookup, OIG work-plan review

Certification roadmap

Outpatient professional coding — the global entry benchmark

Hospital outpatient & APC facility coding

Inpatient ICD-10-PCS, MS-DRG and IPPS reimbursement

Risk adjustment, HCC capture and RAF accuracy

How the program runs

01

Live classes

2 hrs/day, Mon-Fri, recorded

02

Lab practice

Daily chart coding drills

03

Weekly audit

Mentor scores your accuracy

04

Internship

Live queues with real workflows

Placement & career services included

- ✓ Portfolio of 200+ coded cases
- ✓ Weekly mock audits with feedback
- ✓ CPC® exam simulator (2 full papers)
- ✓ Resume, LinkedIn & interview drills

PRICING PLANS

Choose Your Track

Solo Sprint

Learn at your own pace

₹ 5,999

one-time, all inclusive

- ✓ Recorded 12-week curriculum
- ✓ ICD-10-CM + CPT® workbooks
- ✓ Practice case bank
- ✓ Lifetime content access
- ✓ Completion certificate

Enroll Now

MOST POPULAR

Live Edge

Real-time mentor support

₹ 8,999

one-time, all inclusive

- ✓ Everything in Solo Sprint
- ✓ Live doubt-clearing classes
- ✓ Weekly graded assignments
- ✓ Advanced HCC & PCS modules
- ✓ Training + internship certificate

Enroll Now

Career Edge

Get fully job ready

₹ 11,999

one-time, all inclusive

- ✓ Everything in Live Edge
- ✓ CPC® exam simulator + prep
- ✓ 1:1 audit mentorship
- ✓ Resume, LinkedIn & mock interviews
- ✓ 100% placement assistance

Enroll Now

EMI from ₹ 999/month • Group discount for 3+ enrollments • Scholarships for final-year students

Every plan includes

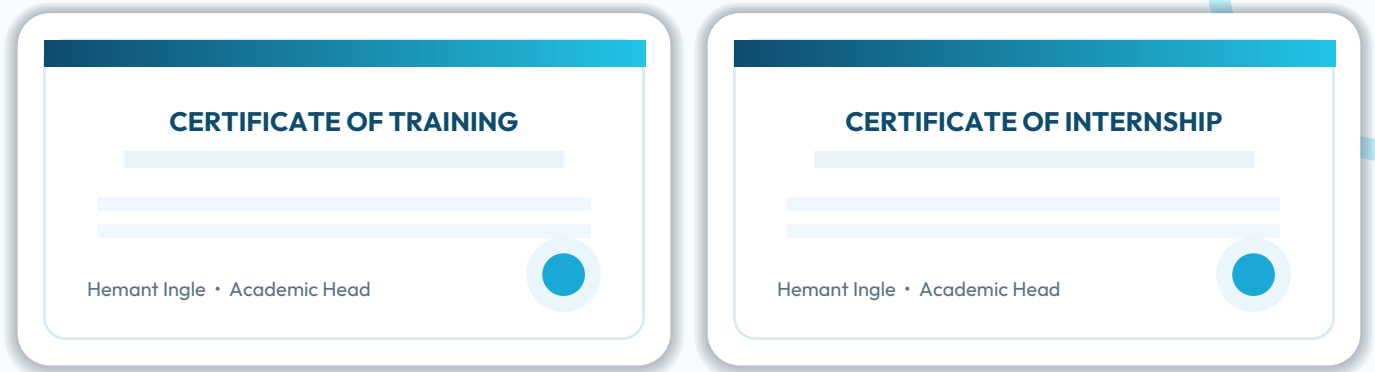

- ✓ ICD-10-CM, CPT® & HCPCS code books (digital)
- ✓ 200+ de-identified practice charts
- ✓ Doubt support on WhatsApp community
- ✓ Verifiable digital certificate
